

# 100% OF OUR COTTON IS ORGANIC CERTIFIED

Stanley/Stella is proudly associated with the following labels related to its use of Organic Cotton.

**Gots:** High-level standards, environmental criteria for textiles made from 100% Organic fibres

**OCS 100:** Certifies that the product is made with 100% Organic Cotton

**OCS Blended:** Applies to all goods that contain a mix of Organic Cotton blended with other fabrics such as recycled polyester, natural fibre like linen, Lenzing Modal® or Tencel®.

Health safety is also a big concern. Stanley/Stella goes for Oeko Tex that **controls and limits chemical use during the whole production process**. Oeko Tex is an independent testing and certification system for textile products.

Organic  
certified by CU 819434

Made with 100% Organically  
Grown Cotton  
Certified by Control Union  
Certification CU 819434

Made with 85% Organically  
Grown Cotton  
Certified by Control Union  
Certification CU 819434

**Disclaimer:** All our Cotton products are 100% Organic certified, most of them following the GOTS standard. But since all of our clients are not (yet) GOTS certified, our products do not have the GOTS logo on their inner labels. Please remember that if YOU are NOT GOTS certified, you CAN'T claim on your printed communication tools or website that your final product is GOTS certified.
