

## WE ARE CERTIFIED

We are one of the biggest organic textile buyers in the world and are Global Organic Textile Standard (GOTS), OCS Blended and OCS 100 certified. In fact, sustainable, organic and social compliance are key commitments of Stanley/Stella. Our strict code of conduct in these areas provides decorators with environmental reassurances that your customers demand.

### 100% of our garments are certified

**GOTS** (Global Organic Textile Standard) is recognized as the world's leading processing standard for textile made from organic fibres. As a standard, it covers the entire chain of production from farm to factory: from harvesting of the cotton, weaving of fibres, assembly of items, to the final product. It certifies that

Stanley/Stella cotton is GMO-free, that it is grown without the use of chemicals and is processed and dyed without using any banned toxic substances. GOTS also ensures compliance with the labour standards of the International Labour Organisation throughout the production chain.

**The Global Recycled Standard (GRS)** label certifies that the materials used are recycled: in the case of polyester we reuse plastic bottles, and for cotton, we collect cutting wastage. GRS also guarantees compliance with social and environmental criteria such as the treatment of waste water, the absence of certain toxic additives and respect for working conditions in our partner factories.

**OEKO-TEX Standard 100** certifies the absence of harmful chemical substances in all Stanley/Stella products thanks to the "Confidence in textile" label. As of 2019, factories will also have to conduct GMO testing on yarn or fabric.
